

## Calculating Your Transferable GPA

---

The SRJC transcript does not calculate your transferable GPA. Therefore, it is your responsibility to review your transcript for transferable courses and determine your GPA for transfer to a four-year university.

- Transferable Courses at SRJC:
  - 1-99 will transfer to the California State University
  - 1-47 will transfer to the University of California for admissions.  
However, you can only include 4 units of physical activity courses and although courses numbered 48 and 49 will be accepted by a UC after transfer, they will not be included in your overall transferable units or GPA.
- A transferable course that you took for P/NP (or CR/NC) will not be calculated into the GPA.
- If you have attended other colleges, meet with a SRJC Counselor to determine which classes transfer to a four-year university and should be included in the GPA calculation.
- AP and IB credit is not included in the calculation of the GPA.

Step 1: Determine which system you are calculating your GPA for – CSU or UC

Step 2: Use a highlighter to mark each class that you have taken that transfers, highlight the course, units attempted and grade points

Step 3: Add up the number of transferable units attempted from Step 2

Step 4: Add up the number of grade points you earned from Step 2

- Each letter grade has a point value (A=4, B=3, C=2, D=1 and F=0). The grade points are determined by multiplying the point value times the units.  
English 1A is 4 units and you earn a B (3 points)  $4 \times 3 = 12$  grade points.

Step 5: Divide the number of units into the number of grade points for your GPA

## Example of SRJC Transcript

---

Coun 270, Engl 100, Math 151 and 155 do not transfer so you would not include those units or grade points in the transferable GPA calculation.

UA = Units Attempted  
 UC = Units Completed  
 GP = Grade Points

Sect	Crs Dept/Nbr	Course Title	Grade	UA	UC	GP	GPA	Code
8082	COUN 270	INTRODUCTION TO COLLEGE	P	<0.50>	0.50	0.00
